

#### **4.3.1 Institution frequently updates its IT facilities including Wi-Fi:**

The institution has a well-equipped system related to its IT facilities including Wi-Fi. The Website has been created and is regularly functional and updated. It is updated by the website updating and maintenance committee. All-important notices related to academics, examinations, assignments, sports, cultural activities etc. are uploaded at regular intervals. Earlier BSNL leased line were used for providing internet facilities in the college campus. Smart classrooms developed 15-16 in chemistry deptt., 16-17 in zoology deptt., five Wi-Fi hotspots were installed in the year 2016 under the Chhattisgarh Sanchar Kranti Yojana in which one connection was in the office, central library, deptt. of chemistry, deptt. of physics, deptt. of Zoology. Four more Wi-Fi routers were made available in the academic session 2018-19. BSNL leased line replaced by railware broadband for enhancing the speed and coverage of internet in the campus. There are two connections of railware one is dedicated to the computer lab. and office. The another one is utilized by all deptts, central library, laboratories etc. Smart classrooms created in the department of physics, botany, micro, law in the academic session 2019-20. Thus we have created a centralised structured LAN and Wi-Fi connections in all departments, sections, computer lab., Departmental laboratories and classrooms of the institution. 24-part switch were installed for networking of computer lab. We have 24 computer systems for practice and use of internet by the students of BSc CS, PGDCA, DCA and other students of the college. Presently all the departments are conducting classes through online medium via google meet, zoom etc. as all the deptt.s are equipped with computers/laptops. The students are also provided with photocopy facilities where they can avail the on line materials for their academic purposes.

D.O.No.F.16-28/2009-DL

12<sup>th</sup> February, 2010

Dear Sir / Madam,

Kindly refer to my letter No. 16-3/2009-DL, dated 21<sup>st</sup> August, 2009 [copy enclosed] regarding Optical Fibre Cable (OFC) based 1 Gbps connectivity to National Knowledge Network (NKN) Point of Presence (PoP) to all the bonafide Universities in the country under the National Mission on Education through ICT (NME-ICT) on a 75 : 25 cost sharing basis between the Central Govt. and the Universities concerned, which includes university level institutions. You would be glad to know that BSNL - MTNL combine has started the work in this regard. This is in addition to the already ongoing work of progressively providing 10 Mbps Broadband over Virtual Private Network (BBoVPN) to all the bonafide Colleges of the country through upto 20 individual connections over copper wire with ADSL modems on 75 : 25 cost sharing basis between the Central Govt and the respective Colleges. You are also aware that 25 % contribution of the University and the College has to be paid by them to the BSNL directly. As indicated earlier, the approximate one time upfront payment for each University works out to Rs. 50 lac plus service tax for the connectivity for a 10 year period and Rs. 10 lac plus service tax for setting up a Local Area Network (LAN) of 400 nodes, if required by the University. In case of Colleges, approximate quarterly payment works out to Rs. 6500/- only. BSNL, on its part has agreed to provide 10% rebate on cost of connectivity.

2. As the connectivity is the key to delivery of e-contents and collaboration between institutions / academicians / experts / researchers, in order to fast track the roll out of connectivity to Universities and Colleges, I would request you kindly to expeditiously take the following steps:

- (a) obtain required approvals for meeting the upfront payments to BSNL for the 1 Gbps link to NKN and for the LAN and to made adequate budget provision for the same,
- (b) nominate a nodal officer whom BSNL / MTNL could contact for these works, and who in turn, could co-ordinate these activities in the University on your behalf,
- (c) identify a 10' x 10' room where the 1 Gbps connectivity could be provided and routers / switches for NKN connectivity and LAN could be placed,

548  
16/2

- (d) grant permission for laying of cables etc.,
- (e) permit Principals of constituent and affiliated colleges of your University to avail of the BBoVPN connectivity at the costs indicated above, and also to consider providing space for erecting mobile tower of BSNL free of cost so as to get optical fibre in the college campus.

3. I shall be grateful for your co-operation in digitally connecting India's educational institutions to make them e-learning enabled in the shortest possible time. In case you need clarifications or assistance, kindly feel free to e-mail to me at the address given above.

With regards,

Yours sincerely

D.O.No. F. 16-3/2009-DI.

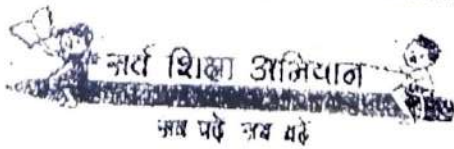

21<sup>st</sup> August, 2009

Dear Sir / Madam,

Kindly recall my earlier letters of even number dated the 9<sup>th</sup> January, 2009 and the 13<sup>th</sup> July, 2009 respectively (copies uploaded on our website [www.sakshat.ac.in](http://www.sakshat.ac.in)) regarding the National Mission on Education through ICT (NMEICT), inviting participation of your Institution and experts in the mammoth exercise of e-content generation, teacher empowerment and adopting e-learning as an effective means of teaching-learning activities. While some project proposals from the Universities and Institutions have started trickling in, the need is to accelerate this process and convert this into a movement for utilising the ICT tools to enhance the quality of instruction and reach of the educational delivery system to the unreached. I once again urge you kindly to proactively participate in the Mission and put creativity of your organisation to the best service of the Nation by utilising the resources (Rs. 900 crore) made available in the current year's budget.

2. As you are aware, providing connectivity to the Colleges, Institutions and Universities is a key component of the NMEICT, so that the high quality e-content could be reached to the teachers and students of these educational organisations. The connectivity under NMEICT would seamlessly integrate with the National Knowledge Network (NKN). You would be glad to know that the work of providing connectivity to these organisations has already been initiated by Bharat Sanchar Nigam Limited (BSNL), which has become a partner in this Mission by investing its resources.

3. While 1 Gbps connectivity to NKN for 10 years and 400 node LAN for each of the Universities in the Country has been envisaged under NMEICT at 25% cost to the Universities, to begin with the Colleges and Institutes, BSNL officials will be providing 10 connections of 512 Kbps VPN over Broadband for unlimited use, with internet connectivity, to each of the Colleges / Institutions recognised under section 12-B of the University Grants Commission (UGC) Act. These Colleges will have to bear 25% of the cost of this connectivity by paying their contribution directly to BSNL. The total financial burden on each College / Institution on account of this level of connectivity would not exceed Rs 15000/- in the current financial year. Rest 75% cost would be borne by NMEICT by making direct centralised payment to BSNL. As an Institution / College starts using more and more of bandwidth, the number of connections to those active users would gradually be enhanced to upto 20 connections per institution. With a view to encouraging BSNL to bring, at its cost, optical fibre to as many Colleges / Institutions as possible, it would be desirable if the Colleges / Institutions consider providing some

(S)

114 7  
space for setting up a mobile tower in their campuses. For participating in this scheme, the Colleges / Institutions may expect / require your concurrence.

4. I shall be grateful, if you could kindly issue suitable instructions to the section 12-B recognised Colleges / Institutions of your University. I am also sending a copy of this letter to the Principal Secretary / Secretary of Higher Education of your State and also to all the Principals / Directors of UGC section 12-B recognised Colleges / Institutions. Let me add that the Mission covers all the educational institutions in the Higher Education domain, whether in public or private sector, and they would also be covered once their list is authenticated by State Govts. / Universities, for which a separate letter follows with a compiled list of such institutions.

With regards,

Yours sincerely,

D.O.No.16-28/2009-DL

Dear Sir / Madam,

Dated: 25.3.2010

1 APR 2010

As you may be aware, under the Centrally Sponsored Plan Scheme of National Mission on Education through Information and Communication Technology (NMEICT), the Government has taken the initiative of providing broadband connectivity to universities/colleges/institutions. This will enable the learner population to access e-learning material. The task is being carried out by the Bharat Sanchar Nigam Limited (BSNL).

Universities and colleges in your State/U.T. will also be provided distinct types of connectivity and Central Government will bear 75% of the expenses (90% in the case of North-East States). Universities are to be connected to the nearest NKN PoP through Optical Fibre. Though major portion of Laying of Optical Fibre across the country has already been done by BSNL, for connecting Individual Universities to the already laid out OFC network some laying of optical fibre cable would be necessary. Sometimes for digging the trenches to lay the OFC, a plethora of clearances from various agencies and payments to them may be required. For State Government's projects, it is expected that the procedure would be much simpler and perhaps free of cost.

Since in order to accomplish this task, BSNL would be needing the help of States/UTs in laying of cables for the purpose at various places and the task is to be completed urgently, I shall be grateful if you could kindly consider according this Project the same status as is accorded to the infrastructure-related projects of the State Government/UT in your State/UT in so far as charges for right of way are concerned. I would also request you to kindly consider passing suitable instructions to the authorities concerned to facilitate and provide all the necessary assistance and support to BSNL in this endeavour.

Yours sincerely

(N.K. Sinha)
