SLOW LEARNERS AND ADVANCED LEARNERS

INTRODUCTION:

In classroom different types of students, some are very intelligent who learn very fast and some are quite weak who learn slowly. Therefore it is required to determine the abilities of the students in the class.

Based on the ability determined, some students need only guidance and some students need hard work and regular attention.

On the basis of their preceding exam performance, current subject performance and class observation, learning speed students it can be classified into two groups:

1. **Advanced learners**
2. **Slow learners**

Each type of students has different learning attitudes and learning habits. A faculty has to adapt a teaching methodology such that he/she may not lose the attention of the slow learners and turn off the advanced learners.

The purpose of assessment of the learning levels of the students and conduction of activities for them is:

1. Identification of the slow learners and advanced learners in the class.
2. To ensure that slow learners and advanced learners are taken care as per their needs.
3. To help them for improvement in their academics.

Process Input

To start identification of slow and advanced learners process following input is needed.

1. Class test result
2. Class observation by subject teacher

Date: 16/01/2021

Online activity for slow learners: -

- Make learning fun and comfortable.
- Guide those students to the main point of lesson and test.
- Use real-life example when teaching physics.

Participated by:- Bsc. - III

Objective:- To make learning fun and comfortable for weak students on their science subject.

Outcome of Activity:-

This will help to start learning with speedy and more conscious mind. Now, they got better marks than earlier.

Activity / Program for advanced learner

Session 2020 - 2021

Date: 14/05/2021

Name of Activity	Documentary film Presentation
Participated by	MSc. (Physics)
Content	Biography of eminent scientist
Objective	To motivate and inspire bright and diligent students and developed collaborative skill and critical thinking.
Outcome of Activity	Students are more energetic and improved their critical thinking and also exported in technical things.

Identifying slow Learners (weak Students)

(i) Slow learners are identified based on their performance in University Examination of previous semester.

Following Special activities are conducted for slow Learners:

(i) Remedial/Extra classes are conducted with appropriate focus on the subject/topic codes in which the students are found to be slow learners.

(ii) Individual academic counseling is done by concerned subject teacher.

(iii) Student helpdesk.

(iv) Students study groups are formed for peer-to-peer learning.

(v) Slow learners are counseled and motivated by the mentors.
